

DECLARATION ON THE ENVIRONMENT

SEMPSA JOYERÍA PLATERÍA, S.A. is aware of the absolute need to combine the development of their activities with the protection of the environment. They have therefore, established a policy committed to this objective, which is embodied in an Integrated Management System. One of its main bases, together with the Quality and Prevention of Labour Risks, consists of implanting an Environmental Management System based on the Standard UNE ISO 14001:2004

To develop this policy, SEMPSA JOYERÍA PLATERÍA S.A. commits themselves to the following:

- Adapt the necessary measures to improve the environmental impact of their activities and products, using the natural resources in a responsible way and minimizing the production of gasses and waste.
- Establish the objectives to improve the environment, forming part of a continuous process of progress and check its compliance from time to time.
- Train and make their workers aware, encouraging communication and their contribution to achieve that all the organization participates in the same policy.
- Comply with the environmental standard applicable to us, as well as with any other commitment subscribe to.
- Spread our policy among our clients and suppliers to achieve joint actions, spreading the awareness of the need to protect the environment.
- Program a system of audits as a tool to check and improve our Environmental Management System.

To achieve maximum efficiency in our Integrated Management System, we need that both our clients and suppliers, parting from the basis of knowing our commitment, support us with their information and suggestions to be able to reach the final objective of protecting the Environment.

Thanks in advance to all for your collaboration

Madrid, 24th of June 2010

Julian Sardá
General Manager
